## **Introduction**

There are lots of fluffy books on Internet Money Making Strategies and techniques.

This manual is detailed, accurate and readable. It is not just a manual; it's a complete and hands-on-course on basic, if not advanced Internet Marketing Business.

This manual contains the basic steps you need to take to make money from the Internet. However, you need to apply a little initiative and spend some time on the Internet, and you are on your way to solving your money problems using the Internet.

This material furthermore teaches you to be free to do what you want, when you want, where you want, with whom you want, for as long as you want without having to worry about money. This boils down to FREEDOM.

Fortunately, you will pick up several ideas you could use to make money in every chapter of this manual.

In this manual, you will learn all the tips and tricks you need to start earning money on the Internet, become independent and free to live the way you WANT!

Would you like to hear my story?

## **My Story**

My name is Gabriel C. Onyekawa. Few years ago, I was a struggling young youth. I was indebted, helpless and seeming helpless. Virtually everything I tried my hands on in a bid to make money failed. I thought I was jinxed!

After searching for a tangible answer for my struggle through life, I discovered that one job was not enough to prosper one in today's world. One investment or one business is not enough. Thus, if you are only relying on one stream of income, you are setting yourself up to be broke one day and the fact is that 85% of the world's population grows old and dies financially broke. That's because most people do not have multiple streams of income.

Knowing that one stream of income is not enough; I got busy finding ways to make more money through avenues other than my "day job".

However, of all the streams of income I studied, I discovered that Internet Marketing has multiple ways of making money for anyone who desires and get committed to making real money following the 21<sup>st</sup> century system of making money.

I was intrigued by this idea. Just the thought of being able to make a living using nothing more than a laptop computer and the Internet sent chills down my spine. I got started immediately.

After daily work and after my wife went to sleep at night, I'd boot my laptop, connect my internet and get online for a few hours (usually between midnight and 3 a.m) trying to learn how to make money online.

I knew other people were doing it and making real money online. I just had to figure out how to do it myself.

Nevertheless, with time things began to work out well. I started making a little bit of money following some of the online marketing strategies I was experimenting with and gradually that little bit of money I was making grew into a full-time income. I started living the "Laptop Lifestyle"

My dream of making a living from home has come true. And today you're a partaker of the same knowledge and know-how that's adding little money into my bank account daily, even without me going out to slave out myself in a 9-to-5 job.

Dear, the purpose of this manual, "**A Simple Guide To Website Designing**", is to share the information that has helped me create a successful online business via blogging so that you too can start making money online instead of gambling with your money or losing your money in Ponzi schemes with promises of multiplying your money without you doing anything!

In the manual, "**A Simple Guide To Website Designing**" I explained...

***How an ordinary person armed with just the phone, ipad, laptop or desktop and an internet connection can make big money from the comfort of his/her own homes.***

***How To Setup and monetize a blog in 5 minutes or less.***

***What You Must Know Before Going Into An Internet Marketing Business***

***The Internet: A Modern day Tool For Making Millions***

***Some Uncommon Ideas That Can Generate Real money From The Internet***

***How To Launch An Internet Business In Minutes, Not Hours, Days Or Weeks***

***How To Apply Internet Technology To Sell Products (Tangible or Intangible)***

***AlaNaija Project, Money-making and You: The Benefits You Might Be Missing If You're Not Partnering With The AlaNaija Project, [www.AlaNaija.com](http://www.AlaNaija.com)***

***In addition, you'll see the latest ways of creating your own blog in 5 minutes or less. I'll show you how to make at least N250, 000 or more monthly.***

***I'll also teach you many ways of monetizing your blog in 5 minutes or less. At this point, you'll discover many***

***alternatives to Google AdSense nobody seems to tell you about.  
This revelation will shock you!***

Need I tell you that there are literally thousands of scams and scam artists waiting behind the veil with sophisticated and highly tuned strategies for ripping you off?

I want to help as many people as possible avoid the scams and learn the truth about what it actually takes to make money online via BLOGGING and BLOG MONETIZATION.

With the facts on ground, you can decide for yourself whether or not you've got what it takes to succeed in the Internet marketing industry.

However, if you want to get started quickly, I can help you get your first website set up within 24 hours, so that you can start applying what you learn in this manual to the real world. I believe that my service is the fastest and easiest way to start making money on the Internet.

However, I make no claim of being the brain behind the manufacturing of WordPress. I have only provided the string for tying them together through our research and development abilities based on my time-tested skill in teaching computer operation at all levels.

I hope that you will be glad to have this manual as your companion and wish that you recommend it to your friends,

relations, colleagues and well-wishers. We hope to see you at the top!!!

### **THERE IS MONEY TO BE MADE FROM THE INTERNET**

According to research, Nigeria is currently the 8<sup>th</sup> largest users of the Internet globally. Over 50 million Nigerians use Google and other search engines to find information from the internet. We have over 180 million Nigerians today on earth. Think of having a fraction of this percentage buying your product through the Internet, where you don't need to spend more money to make more money.

Dear, anything can be done on the internet! But, to be sustained in this business, you must either be selling something (A product) or providing a service online. That is what guarantees your tangible success.

The Internet, just like the Television or radio, is a marketing medium used for Instant inter-activity. It is an incredible communication tool which helps you to deliver your marketing

message faster, cheaper, and more easily to larger and larger numbers of upscale consumers.

With the internet, you can consistently make money while you sleep!

Imagine making money while you sleep. Imagine waking up richer every morning than when you went to bed the night before. Imagine receiving streams of money from people all over the world. Imagine a business that operates on auto-pilot, whether you show up or not. Imagine low overhead and high profits. Imagine operating your business from a five-star hotel in your choice country-from a cell phone or from your laptop. If you can imagine these things, you can achieve them using the vehicle of the Internet.

Nevertheless, regardless of the fact that untold wealth is consistently generated using the tool of Internet, too many people jump into the NET hoping to find fortune. They launch a Web page and expect the money to start pouring in. It does not work that way!

Did they tell you that the World Wide Web consists of billions of pages of information stored on billions of linked computers? Thus, the more popular the Web becomes, the harder it is for people to find you through your website, posts or chat, unless you give them a good reason to do so.

Therefore, in the next few pages, I will be teaching you what my mentors, Ewen Chia, Robert Allen, A. Monday Onaes, Sunday

Obazu-Ojeabase, Brian Tracy, Zig Ziglar, Jay Abraham, among others, taught me that made me successful as a blogger!

I shall be teaching you how to create your own WordPress Blog in 5 Minutes or less. You shall also learn multiple ways an average non-techie can earn serious amounts of income from the Internet. This is 24/7/365 money; the kind of money that most people only dream about. And it can happen faster than you think!

Let's take them one after the other...

## **How To Setup (Create) A BLOG and Monetize it**

### **In 5 Minutes or Less**

**Step One: PREPARATION PRECEDES PERFORMANCE:** R. Buckminster Fuller predicted accurately that the Dark Ages still reign over all humanity, and the depth and persistence of this domination are only now becoming clear. This Dark Ages prison has no steel bars, chains, or locks. Instead, it is locked by mis-orientation and built of misinformation.

Millions of people are already in a great depression. They are the millions of people who are already relying on Government support, or are among the working poor, or feel the stress of a shrinking middle class. Kiyosaki added.

However, sometimes you have to let go of what you love doing so you can do what you are supposed to do. This session teaches you how. This is because if you give a man fish, you have succeeded in feeding him for a day. But, if you teach him how to fish, he will feed for a lifetime.

The secret behind making it from Blogging Business is focusing on the vision and passion, not just the money. That is why it is said, “Chase the vision, not the money; the money will end up following you”
